

Global Foreign Exchange Market Trading Hours

主要外匯市場交易時間

Foreign exchange market operates globally round-the-clock. Market starts daily Asia Pacific Time Zone, such as Australia and Japan. Europe Time Zone including UK follows and America Time Zone marks the end of a trading day. At those overlapping trading hours, trading volume is possibly higher.

外匯市場於全球24小時運作。市場每日從包括澳洲及日本的亞太時區開始，接著是包括英國的歐洲時區，最後以美國時區作結束。當多個市場的交易時間重疊，交投量有機會較高。
