 - (b) if the Square Contract can only set-off a portion of the Principal Contract, such portion of the Principal Contract that can be set-off by the Square Contract will be netted and the Bank will determine the Settlement Value in relation to such portion of the Principal Contract that can be set-off by the Square Contract and the Square Contract. After netting, such portion of the Principal Contract that can be set-off by the Square Contract and the Square Contract will be discharged but the remaining portion of the Principal Contract will remain in full force and effect; and/or

 - (b) the Close-out Amount is determined to be payable by the Bank to the Customer, the Bank shall pay to the Customer the Close-out Amount as soon as practicable.
- 12.2 The Bank shall have the right, but not the obligation, to close out all or any Margin Trading Contracts of the Customer on such terms and at such time as the Bank may in its sole and absolute discretion deem fit by reference to the prevailing Exchange Rate, Currency Exchange Rate and/or such other market rate as the Bank considers appropriate and, in respect of the relevant Currency, calculated on such day-year basis as is the Bank's practice for the Currency concerned, and determine the Close-out Amount in respect of such Margin Trading Contract(s) accordingly. The Bank shall also have the right, but not the obligation, to close the Margin Trading Account.
- 12.3 A certificate by the Bank of the Close-out Amount shall be conclusive and binding on the Customer, save for manifest error.

13. Payments and Charges

- 13.1 All payments due to be made by the Customer under Clause 9, Clause 10 and/or Clause 12 shall be made in immediately available funds at the relevant time on the relevant date by the Customer transferring the relevant amount from a Designated Account or, where permitted under the Agreement, any of the Collateral Accounts other than the U.S. Dollar Collateral and Settlement Account to the U.S. Dollar Collateral and Settlement Account (or at the Bank's sole and absolute discretion from a direct payment from another source into that account, but such payment shall not be treated as received unless it is in immediately available funds, and the Bank shall not be responsible for the time it may take to clear the payment and make them available for debit from the U.S. Dollar Collateral and Settlement Account). The Bank is irrevocably authorised by the Customer but is not obliged to debit the U.S. Dollar Collateral and Settlement Account with such amount, and no payment is effective unless and until the Bank actually receives the payment in the U.S. Dollar Collateral and Settlement Account. Where there are insufficient immediately available funds in the U.S. Dollar Collateral and Settlement Account, the Bank is irrevocably authorised by the Customer but is not obliged to transfer such amount from the other Collateral Account or Designated Account to the U.S. Dollar Collateral and Settlement Account to effect the payment hereunder and unless and until the Bank has received the payment in the U.S. Dollar Collateral and Settlement Account, the Customer shall not have fulfilled its obligation hereunder.
- 13.2 All payments to be made by the Customer under the Agreement to any Collateral Account shall be made by requesting the Bank to transfer such sum from any Designated Account to such Collateral Account and the Bank may, in its sole and absolute discretion, accept payments to be made direct into such Collateral Account but such payments shall not be treated as received unless they are in immediately available funds and the Bank shall not be responsible for the time it may take to clear the payments and make them available for use by the Customer for the purpose of the Agreement.
- 13.3 The Customer shall be solely liable for any taxes or duties (if any) payable on or in respect of the Margin Trading Services, any of the Accounts or any of the transactions thereunder or the assets or property held therein or for any diminution in the value of such assets or property. All payments to be made by the Customer to the Bank under the Agreement and/or these Terms and Conditions shall be made to the Bank as specified by the Bank without any set-off, counterclaim or condition and free and clear of all present and future taxes, deductions or withholdings of any nature whatsoever. If at any time the Customer is required to make any deduction or withholding for or on account of tax or otherwise from any payment to the Bank, the sum due from the Customer in respect of such payment shall be increased to the extent necessary to ensure that, after the making of such deduction or withholding, the Bank receives on the due date for such payment (and retains, free from any liability in respect of such deduction or withholding) a net sum equal to the sum which the Bank would have received had no such deduction or withholding been made or required to be made and it shall be the sole responsibility of the Customer to effect payment of such deduction or withholding to the relevant authority within the applicable time limit. The Customer shall jointly and severally indemnify the Bank against any losses, liabilities, interest, penalties, or costs and expenses payable or incurred by reason of any failure of the Customer to make any such deduction or withholding or to effect payment of such deduction or withholding to the relevant authority within the applicable time limit or by reason of any increased payment not being made on the due date for such payment. Upon request of the Bank, the Customer shall jointly and severally and promptly deliver to the Bank evidence satisfactory to the Bank that such deduction or withholding has been made or (as applicable) any appropriate payment paid to the relevant authority. Any fee or charge (if any) referred to in these Terms and Conditions is exclusive of any value added tax, goods and services tax or any other tax which might be chargeable in connection with that fee or charge. If any value added tax, goods and services tax or other tax is so chargeable, it shall be paid by the Customer at the same time as it pays the relevant fee or charge.
- 13.4 Without prejudice to Clause 6.8, no payment to the Bank under the Agreement pursuant to any judgment or order of any court or otherwise shall operate to discharge the obligations of the Customer under the Agreement unless and until payment in full shall have been received by the Bank in the Currency in which such payment was due ("**currency of obligation**") and to the extent that the amount of such payment shall on actual conversion into the currency of obligation at the Currency Exchange Rate fall short of the amount due in the currency of obligation, the Bank shall have a separate cause of action against the Customer for the recovery of such sum as shall, after conversion into the currency of obligation, be equal to the amount of the shortfall.
- 13.5 The Bank reserves the rights to require the Customer to pay fees, charges and/or commission in relation to the Margin Trading Services and/or the Margin Trading Contracts and to revise such fees, charges and/or commission upon giving not less than 30 days' written notice to the Customer specifying the

amount of the applicable fees, charges and/or commission provided that, where any revision of fees, charges and/or commission is beyond the Bank's control (for example, due to the imposition and/or change of law, regulations and/or government orders), the Bank will give such notice to the Customer as soon as practicable in the circumstances.

14. Interest on overdue sums

Any amount not paid under the Agreement when due to the Bank (including, without limitation, the Close-out Amount) shall bear interest (both before and after judgment), payable on demand and in the same Currency as the relevant amount, at such interest rate as the Bank reasonably determines (computed on a daily basis) according to the market practice for such Currency for the period beginning on the date on or as of which it becomes due under the Agreement and ending on the date on which it is paid. Any such interest which is not paid on demand shall bear interest on a simple basis daily and the Bank shall be entitled to compound such interest from time to time at its sole and absolute discretion.

15. Customer's Instructions

- 15.1 The Customer may give instructions to the Bank on such trading day and during such hours as the Bank may specify in accordance with Clause 4.4, specifying the date, amount, Currencies/Currency and the Precious Metal of the proposed Margin Trading Contract. The Bank may rely on Telephone Instructions given for that purpose or otherwise in relation to the Agreement, including without limitation, Telephone Instructions for the transfer of funds to and from the Designated Account(s) or between Collateral Accounts. Any Telephone Instructions and/or Online Instructions which the Bank believes in good faith to have been given by the Customer shall be irrevocable and binding on the Customer. The Bank shall have no duty to verify the identity of the person giving the Telephone Instructions and/or Online Instructions or the authenticity of any Telephone Instructions and/or Online Instructions. The Customer shall keep the Customer's personal identification number secured and recognises and accepts that the risk of any misunderstanding or error or the risk of any unauthorised instructions shall be borne by the Customer. The Bank shall incur no liability to the Customer or otherwise, and the Customer shall indemnify the Bank for, and hold it harmless against, any and all costs, charges, claims, damages, losses and/or expenses (including, without limitation, legal fees and other costs and expenses which are of reasonable amounts and reasonably incurred), arising from or in connection with the Bank acting or omitting to act pursuant to instructions which the Bank believes it may rely on (except to the extent of the Bank's gross negligence, fraud or willful default). If the Customer shall fail to provide such identification evidence in such manner as may be acceptable to the Bank, the Bank shall be entitled to, without prejudice to its rights hereunder, suspend the service it provides pursuant to the Agreement. For the avoidance of doubt, the Bank shall have no liability in respect of any such suspension or any consequences thereof.
- 15.2 Any Margin Trading Contract entered into by the Bank with the Customer shall be promptly confirmed by the Bank in writing in the form of an Advice provided, however, that in the event of any discrepancy between the original instruction and the Advice, the Bank's record of the original instruction shall prevail unless and until the contrary is established. The Bank may, and the Customer hereby expressly authorises the Bank to, tape record or otherwise record all Telephone Instructions and/or Online Instructions given by the Customer. The Customer expressly agrees that should a dispute arise at any time in relation to the content of such Telephone Instructions and/or Online Instructions, then that tape recording, or one such record, or a transcript of the same certified as being a true transcript by an officer of the Bank, shall be conclusive evidence as between the Bank and the Customer as to the contents and nature of such Telephone Instructions and/or Online Instructions given unless and until the contrary is established and may be used as evidence in such dispute.
- 15.3 If and to the extent that the terms of a Margin Trading Contract, any Advice thereof issued by the Bank, any Statement or either party's accounting or other records are or purport to be inconsistent with these Terms and Conditions and the Agreement, these Terms and Conditions and the Agreement shall prevail.
- 15.4 The actual bid and offer prices of any Margin Trading Contract will be determined at the time when such Margin Trading Contract is effected. Any figures which may have been quoted by the Bank or its representatives at any time for the purpose of the Margin Trading Contract are for indication only and the Bank is authorised to effect such Margin Trading Contract at the price prevailing in the relevant foreign exchange and/ or precious metal market at the time when such Margin Trading Contract is in effect. For the avoidance of doubt, the Customer accepts that the Bank shall not be liable for any loss suffered by the Customer in the case of any misquotation of price by the Bank.

- 15.5 Subject to Clause 4, if the Customer places an order with the Bank to buy or sell a specific quantity of Currency or Precious Metal at a specified price, such order to be executed within a specified time period, the Bank shall endeavour to execute the order provided that the relevant quantity of Currency or Precious Metal becomes available at such price but shall not otherwise be liable to execute such an order.
- 15.6 The Customer acknowledges its receipt, understanding and acceptance of the terms of the Risk Disclosure Statement given to the Customer in connection with the Agreement in Schedule I.
- 15.7 The Bank shall have no responsibility or liability of any kind for any claims, losses, costs, charges, expenses (including legal expenses) and/or damages whatsoever incurred by the Customer as a result of and to the extent of (i) any delay in or failure to transmit funds for reasons beyond the Bank's control, including, without limitation, the non-availability of Currencies and/or Precious Metal, or (ii) the Bank's failure (whether total or partial) promptly to execute orders placed with it or to transact business or otherwise operate in the manner contemplated by the Agreement for reasons beyond its control, including, without limitation, exchange control or other government restrictions or regulations, exchange or market rulings or suspension of trading, any act of force majeure, war, any breakdown or failure of transmission, communication or computer facilities, postal or other strikes or similar industrial action and the failure of any exchange, market or clearing house or the failure of any person or party to perform any of its obligations arising out of any transaction to which the terms of the Agreement apply or any default by any such party or person.
- 15.8 If the Customer comprises more than one person, the liability of the Customer under the Agreement shall be the joint and several liability of all such persons and the Bank is entitled to credit the Collateral Account with moneys received or collected for the credit of any account holder and any Close-out Event shall be deemed to have occurred on the Customer if it has occurred in respect of any one or more of such persons. In the event of the death or bankruptcy of any such person, the obligations of each other person(s) comprising the Customer in respect of the Agreement existing at such time shall continue in full force and effect and the Bank shall be entitled to rely on the instructions of such other person(s) and, subject to compliance with the Estate Duty Ordinance, the Bank shall, on the death of any such person, hold any credit balance on the Collateral Account to the order of the survivor(s). Each of the persons comprising the Customer agrees and consents to be bound by the Agreement, notwithstanding that the Agreement may be invalid or unenforceable against any one or more of such other persons.
- 15.9 Where any conditional order made by a Customer incorporates a time limit, that time limit shall be of the essence, and the Bank shall not execute or otherwise act on that order after the time limit has passed, regardless of the prevailing or likely market conditions, and shall for the avoidance of doubt have no liability whatsoever for not effecting such execution or otherwise acting in respect of that order.

16. Termination

- 16.1 The Bank reserves its right to suspend or terminate the Margin Trading Services, close any or all Accounts, cancel any pending instructions or Margin Trading Contract(s) and/or close out any or all Margin Trading Contract(s) at any time without giving any notice and reason.
- 16.2 Without prejudice to the generality of Clause 16.1, the Bank may terminate the Agreement, the Margin Trading Services and/or close any or all Accounts at any time by giving not less than 30 days' notice in writing to the Customer, unless such notice period would expose the Bank to further financial risk, be impermissible under Applicable Rules, or otherwise be unacceptable to the Bank. The Customer is required to ensure that there are no pending instructions or outstanding Margin Trading Contract at the end of the notice period.
- 16.3 Without prejudice to the generality of Clause 16.1 and notwithstanding Clause 16.2, the Bank may suspend or terminate the Agreement and/or the Margin Trading Services and/or close any or all of the Accounts and/or cancel any pending instruction at any time without giving notice:

- (c) if the Customer fails to execute or re-execute (as the case may be) within such time as requested by the Bank such further document(s) which may be required by the Bank as the Bank in its sole and absolute discretion thinks necessary whether for the Bank's administrative purpose or as a result of the revision of documentation relating to the Margin Trading Account and/or the Agreement and/or the Margin Trading Services and a final 24-hour notice requiring the Customer's execution or reexecution of such document(s) has been served on the Customer and expired; or
 - (d) if the Customer commits any breach of or fails to observe any obligations under the Agreement which, in the sole opinion of the Bank, amounts to a material default on the part of the Customer.
- 16.4 The termination of the Agreement and/or the Margin Trading Services shall not affect the Bank's rights against the Customer in respect of any obligations of the Customer hereunder prior to termination. Upon termination of the Agreement and/or the Margin Trading Services, the Collateral Accounts and the Margin Trading Account may be closed in such manner as the Bank may in its sole and absolute discretion prescribe.
- 16.5 Clauses 6.7, 6.8, 13.4, 14, 15, 17 to 22 shall survive termination of the Agreement and/or Margin Trading Services.

- 17.1 The Customer agrees to indemnify and keep indemnified the Bank on demand against any and all claims, losses, costs, charges, expenses and/or damages (including, without limitation, legal fees and other costs and expenses which are of reasonable amounts and reasonably incurred) incurred by the Bank arising out of, or directly or indirectly resulting from the Agreement, the Customer's use of the Margin Trading Services and/or the Margin Trading Account including any of the following, unless it results from any gross negligence, fraud or willful default on the part of the Bank:

- 17.3 The Bank is entitled to withhold, retain or deduct such portion from the Customer's Accounts as it determines to be sufficient to cover any amount which may be owed by the Customer under this Clause 17. This indemnity shall continue notwithstanding the closure of Accounts or the termination of the Agreement and/or these Terms and Conditions.

18. Assignment

The Customer may not transfer or assign all or any of the Customer's rights or obligations under the Agreement or create or grant any security on or over any such rights, nor shall any of such rights or obligations be capable of assignment or transfer or having security created over them, except with the prior written consent of the Bank. Information comprising commentaries, financial information and other data are not intended as investment advice or for trading or other purposes. They may be provided to the Bank by other persons or compiled by the Bank from information and materials provided by other persons. - 19.4 Each provision of these Terms and Conditions is severable and, if any provision is or becomes invalid or contravenes any applicable laws, rules or regulations, the remaining provisions will not be affected.

The English version of these Terms and Conditions shall prevail whenever there is any discrepancy between the English and the Chinese versions unless otherwise specified.

23. Notification Service

23.1 The Customer hereby agrees that the Bank may (but shall not be obliged to) from time to time provide notification service ("Notification Service") to the Customer for the purposes of receiving notice or information relating to the transactions effected by the Customer under these Terms and Conditions, the Account(s) (including but not limited to margin top-up and position close-out messages or notices), any Margin Trading Contract, the Margin Trading Services, or to foreign exchange and precious metals generally and such other information as the Bank may specify.

23.2 For the avoidance of doubt, the Customer agrees that the Notification Service is provided by the Bank at its sole discretion and is subject to these Terms and Conditions.

23.3 To receive the Notification Service, the Customer agrees and acknowledges that the Bank may use contact details of the Customer (including, without limitation, the address, email address, phone number and other contact details of the Customer) provided by the Customer to the Bank or are otherwise documented in the Bank's records. A Customer shall promptly notify the Bank, in such manner as the Bank may from time to time prescribe, of any change in such contact details (including,

without limitation, the contact details of its communication equipment), and shall notify the Bank promptly upon disconnection or suspension.

- 23.4 The Bank reserves the right to determine and vary the communication channels by which the Notification Service is made available to the Customer. The Bank will from time to time specify the scope of the Notification Service and the types of communication equipment normally acceptable for the purposes of providing the Notification Service. The Notification Service may be made available using communication equipment acceptable to the Bank only. The Bank reserves the right to modify, expand or reduce the scope of the Notification Service from time to time.
- 23.5 The Notification Service may without notice to Customers be suspended for any reasons including, without limitation, any breakdown, maintenance, modification, expansion and/or enhancement work initiated by the communication company(ies) concerned in relation to their network. The Bank will not assume any liability or responsibility for any such suspension.
- 23.6 Without prejudice to the generality of the provisions of the Notice to Customers relating to the Personal Data (Privacy) Ordinance, where applicable each Customer expressly authorises the Bank to disclose to the Bank's subsidiaries, agents and the relevant communication companies (within or outside Hong Kong Special Administrative Region) such personal data and other information relating to the Customer, its Account(s) and transactions and dealings in connection with its Account(s) which the Bank may consider appropriate for the purposes of providing the Notification Service.
- 23.7 The Customer acknowledges that notice and information received by it via the Notification Service is for information only, and shall not under any circumstances be taken as conclusive evidence of the matters to which it relates. Transaction advice and account statements will be supplied by the Bank in accordance with and subject to these Terms and Conditions.
- 23.8 The Bank will not assume any liability or responsibility for providing the Notification Service according to the particulars registered with the Bank from time to time unless it results from any gross negligence, fraud or willful default on the part of the Bank.
- 23.9 The Bank shall not assume any liability or responsibility for any failure or delay in transmitting information to the Customer or for any error, misquotation or inaccuracy in such information unless it results from any gross negligence, fraud or willful default on the part of the Bank. In particular, the Bank shall not assume any liability or responsibility for any consequences arising from any cause beyond its reasonable control including, without limitation, failure of the Customer's communication equipment to receive information for whatever reason, any telecommunication breakdown, mechanical failure, power failure malfunction, breakdown, interruption or inadequacy of equipment or installation, Act of God, governmental act, civil commotion strike, war, fire, flood or explosion. In the event of any failure or delay in transmission, the Bank shall not be responsible to arrange for any message to be re-sent to the Customer.
- 23.10 The Customer shall indemnify in full on demand and hold the Bank and its directors, officers and employees harmless from time to time against all liabilities, losses, damages, claims, costs and/or expenses whatsoever which may be incurred or suffered by the Bank and its directors, officers and employees arising out of or in connection with or pursuant to the Notification Service at any time or from any cause whatsoever (including, without limitation, legal fees and other costs and expenses which are of reasonable amounts and reasonably incurred) unless they result from any gross negligence, fraud or willful default on the part of the Bank or any of its directors, officers or employees.
- 23.11 The Bank reserves the rights to require the Customer to pay fees and charges in relation to the Notification Service and to revise such fees and charges upon giving not less than 30 days' written notice to the Customer specifying the amount of the applicable fees and charges provided that, where any revision of fees and charges is beyond the Bank's control (for example, due to the imposition and/or change of law, regulations and/or government orders), the Bank will give such notice to the Customer as soon as practicable in the circumstances. Further, the Customer shall bear all fees, charges and expenses which may be imposed by the communication company providing or servicing his communication equipment in connection with the Notification Service.
- 23.12 The Bank reserves the right to suspend or terminate the Notification Service at any time by giving 30 days' notice to the Customer.

Schedule I

IMPORTANT: Risk Disclosure Statement for Hang Seng FX and Precious Metal Margin Trading Services/ Hang Seng Advanced FX and Precious Metal Trading Services Master Agreement (the "Agreement")

For the avoidance of any doubt, the Bank wishes to draw the Customer's attention to certain financial risks associated with the Agreement, and Margin Trading Contracts generally. The Customer must carry the burden of these and all other risks (which can be substantial) and the Bank will not be responsible for any losses whatsoever arising from the Agreement or any Margin Trading Contracts. The Customer should therefore carefully consider whether such trading is suitable for the Customer in light of the Customer's financial condition, experience and investment objectives. The Bank recommends that the Customer obtain independent legal advice and/or other professional advice before entering into the Agreement. The following is a summary of some of the risks involving in the Agreement or entering into Margin Trading Contracts; it is NOT exhaustive.

1. The risk of loss in leveraged foreign exchange and precious metal trading can be substantial. The Customer may sustain the total loss of the Customer's initial margin and any additional deposit or additional funds or security deposited with the Bank to establish or maintain positions. If the market moves against the Customer's positions, the Bank may call upon the Customer at short notice to make additional margin deposits (which may be substantial) or interest payments in order to maintain the Customer's positions. If the Customer does not immediately provide the required margin deposits or interest payments, the Customer's positions may be closed out without further notice to or consent from the Customer. Invariably, closing out will result in a loss to the Customer and, in addition, the Customer will be liable to make further payment to the Bank in the event that the Customer's margin deposits do not cover the full loss accruing to the Customer's account upon closing out and/or interest charged on the Customer's account. The Customer should therefore carefully consider whether such a financing arrangement is suitable in light of the Customer's own financial position and investment objectives.
2. Under certain market conditions, the Customer may find it difficult or impossible to liquidate a position. Placing contingent orders, such as "stop-loss" or "stop-limit" orders, will not necessarily limit the Customer's losses to the intended amounts, since market conditions may make it impossible to execute such orders at the designated price.
3. The prices of foreign exchange and precious metals are volatile. The Customer should recognise that the prices of foreign exchange and precious metals as well as the value of the Customer's investment may go down as well as up. Losses may be incurred rather than profit made as a result of entering into margin trading. The Margin Trading Account does not represent any deposit of money or provide any interest or any other yield to the Customer (except those expressly specified by the Bank and notified to the Customer). The Customer will have no right to require any delivery or tender delivery of the relevant currency(ies) and/or Precious Metal in any physical form in Hong Kong or elsewhere under any Margin Trading Contract. The Bank will not have any duty or liability to appropriate, set aside and/ or allot any Currency(ies) and/or Precious Metal in any physical form for or to the Customer, whether under any Margin Trading Contract, the Margin Trading Account or otherwise.
4. All Margin Trading Contracts are settled in U.S. Dollars. If a Margin Trading Contract is denominated in a currency other than U.S. Dollars, the Customer will also be exposed to the fluctuations in the prevailing exchange rate between such currency and U.S. Dollars when the Margin Trading Contract is settled, or when the outstanding positions are closed.
5. In case the Collaterals are denominated in Currencies different from that of the Margin Trading Contract(s) entered into by the Customer, the Customer may be subject to exchange rate risk which will impact on the profit/loss of trading.
6. The high degree of leverage which is often obtained in connection with the Agreement or Margin Trading Contracts can work against the Customer as well as for the Customer. The use of leverage can lead to large losses as well as gains.
7. The Bank will act upon the instructions of the Customer and the Customer cannot assume that the Bank will warn the Customer if the Customer's instructions are likely to lead to loss to the Customer. The Customer acknowledges that the Bank may take the opposite position to its order.

8. The electronic trading facilities for the Margin Trading Services are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. The Customer's ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or participant firms. Such limits may vary, and the Customer should ask the Bank for more information if required.
9. Trading on an electronic trading system may differ from trading on other trading systems or platforms. If the Customer undertakes transactions on an electronic trading system, it will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that the Customer's order is either not executed according to the Customer's instructions or is not executed at all.
10. The Customer acknowledges that it shall enter into each Margin Trading Contract governed by the Agreement in reliance only upon its own judgment. The Customer acknowledges that the Bank does not hold itself out as advising, or any of its employees or agents as having the authority to advise, the Customer as to whether or not it should enter into any such Margin Trading Contract or as to any subsequent action relating thereto or on any other commercial matters concerned with any Margin Trading Contract governed by the Agreement and the Bank shall not have any responsibility or liability whatsoever in respect of any advice of this nature given, or views expressed, by it or any of such persons to the Customers, whether or not such advice is given or such views are expressed at the request of the Customer unless it results from any gross negligence, fraud or willful default on the part of the Bank.
11. The Customer acknowledges that it has obtained a clear explanation of all commission, fees and other charges for which it will be liable. The Customer understands that such charges will affect its net profit (if any) or increase its loss.
12. Where the Bank has agreed to provide Notification Service to the Customer, the notices, information and messages sent to the Customer using the Notification Service (such as margin top-up and position close-out messages or notices) may be sent to the Customer on a delayed basis. For example, in extreme circumstances whereby the market moves significantly against the Customer's positions, if the Margin Level falls to or below the Close-out Margin Level within a short period of time, no margin top-up messages or notices may be sent to the Customer before close-out occurs.
13. If the Margin Trading Contract involves Offshore Renminbi, Customer is also subject to the currency risk of Renminbi. The value of Renminbi against other foreign currencies fluctuates and will be affected by, amongst other things, the PRC government's foreign exchange control (for example, the PRC government regulates conversion between Renminbi and foreign currencies), which may adversely affect Customer's return under the Margin Trading Contracts when Customer convert Renminbi into his/her home currency.

This brief statement cannot disclose all the risks and other significant aspects of the Agreement. The Customer should carefully study the terms and conditions and arrangements before the Customer trades.
